

I am writing to let you know how important K-LOVE is to me and my family. I listen to K-LOVE at home as well as in my car. It is so uplifting to hear positive, christian music and news!!! I don't have to worry about hearing the "garbage" that I hear on other stations!! I have friends and family that live in other states and we call each other sometimes and say 'are you listeing to that song?!', we hear the same thing at the same time!!! It is so great to be able to hear a station that is interesting, positive and helpful to not only my community, but to our country!! K-LOVE is like a "friend" when you need one! It is always there with inspiration!
